## Canyon Team Forges Ahead

### Elderly Woman Bitten By Colt

Mrs. Louise Sallaway, 71 years old, was bitten more than a score of times and trampled Sunday afternoon by a year-old stallion which attacked her as she was putting rubbish in a trash can at St. Ann's Rectory.

Mrs. Sallaway, mother of Father George Sallaway who is pastor of St. Ann's, was in good condition Wednesday at Neblett Memorial Hospital here.

Her physician said she suffered numerous cuts, bruises

and abrasions over her body. She suffered a compression fracture of the spine and her arms and legs were bitten more than 20 times by the animal.

Mrs. Sallaway's physician said the stallion is under surveillance for rabies. Dr. Joe Markham, veterinarian who is watching the animal, expressed doubt that the pony is afflicted with the disease.

The stallion, named Stormy, belongs to Ronnie Crow, 14, son of the Carl Crows who live just east of St. Ann's Rectory at the east edge of Canyon. Mrs. Sallaway lives at the rectory with her son.

"I went to empty the trash," Mrs. Sallaway related from a hospital bed. "I turned around and there he was. He got me

### Mrs. Jacobs Is Injured

Mrs. Jerry Jacobs was injured last Friday morning in a two-car crash 12 miles out of Yoakum as the Jacobs family was en route to Canyon.

Jacobs, now living at Edna, is the new superintendent of Canyon Schools.

Mrs. Jacobs suffered a fracture of the right shoulder blade and fracture of three ribs. She was hospitalized in the Muritz Memorial Jackson County Hospital in Ganado. Members of the family said Mrs. Jacobs was to have been released from the hospital by Wednesday.

Mrs. Jacobs was injured in a two-car collision at a junction only 27 miles from Edna. Mr. and Mrs. Jacobs were in the front seat of the Jacobs car and were wearing seat belts. Their daughter Sharlette, 15 years old, and son, Eddie, 13, were sitting in the back seat. Only Mrs. Jacobs was injured. Sharlette said both cars involved were moving slowly. One side of the Jacobs car was badly damaged.

Jacobs is scheduled to visit Canyon the latter part of this week.

### Fine Blooded Bull Given WT

An angus bull valued at \$55,000 was recently given to the West Texas State University Agriculture Department by a woman in Houston.

Mrs. Bess Fish, owner of the Green Valley Angus Farms, learned that the WTSU Agriculture Department had received 14 angus heifers through a gift by the West Texas Angus Breeders Association.

She contacted Glenn Bratcher, secretary of the American Angus Association, who in turn notified WTSU Agriculture Department head Dr. Charles Smallwood that the animal was available as a herd bull.

The bull, named "Ermitre of Blue Sky", weighs about 1,800 pounds. Dr. Smallwood said.

Among those awards given "Ermitre" include grand and

### Aphids Are Blamed For Spreading Virus

A virus attacking area grain sorghum is spread by aphids, scientist told County Agent John Brazil late last week.

The grain sorghum disease has been identified as Maize Dwarf Mosaic, a virus disease.

Laboratory confirmation was made by Dr. Robert Toler, cereal virologist in the Plant Science Department at Texas A & M University.

Dr. Robert Berry, plant pathologist with the extension ser-

vice, visited in Randall County last week and informed Brazil of this finding.

The central portion of the Texas Panhandle in which Randall County is located seems to be hardest hit.

Brazil said infected plants show a mottled mosaic pattern of light and dark green on the new leaves as they emerge from the whorl.

The most striking symptom of MDMV appears on the hybrids which have certain Redland Kaffirs in the parentage, said Brazil. The leaves become red and die between the veins.

He said other varieties may be just as susceptible but show only faint yellow chlorosis and green mottle on the newest leaves. The mottled symptom disappears as the sorghum forms the boot but the red-leaf symptom will not disappear.

supreme champion of the American Angus Futurity at Lexington, Ky. in 1961; reserved grand champion at Houston in 1962, second at the International Livestock Exposition in 1962; reserved senior champion at San Antonio in 1963; and senior and reserved grand champion at Houston in 1963.

The animal, that was calved in 1960, was originally owned by Blue Sky Farms at Kerney, Mo. Mrs. Fish purchased the bull in 1962 for \$55,000, although she allowed the Blue

MDMV overwinters in the rhizomes of Johnson grass and is transmitted by aphids or plant lice. As tender Johnson grass shoots emerge in the spring, the aphids feed on the new shoots, acquire the virus, and move to susceptible crops where the disease is transmitted.

The virus does not live on dead plant material.

Scientists offer little hope of containing the disease through insect control. Aphids are one of the most abundant of insects and winged aphids can fly hundreds of miles.

"Complete eradication of host plants such as Johnson grass does not seem to be possible at this time," Brazil declared.

"The best chance for reducing loss from this disease seems to be in location and use of resistant varieties of

grain sorghum," he went on.

Brazil said many members of the extension service specialists staff and commercial plant breeders, together with research workers are now evaluating more than 200 varieties

### To Negotiate On Depository

Agreements will be negotiated with the three banks interested in being depositories for funds of West Texas State University, and the proposed agreements will be submitted for consideration by the Board of Regents, Texas State Senior Colleges, at its September meeting, President James P. Cornette said today.

The board, at its July 28 meeting, rejected all bids from the First National Bank of Amarillo, the Amarillo National Bank, and the First National Bank of Canyon, Dr. Cornette said.

The First National Bank of Amarillo submitted a bid on bond interests and sinking fund accounts only, which it now has.

Happy Man Gets Medal

The Air Medal for heroism was awarded to Army Major William J. Lumpkins Jr., whose father lives in Happy, during ceremonies at Ft. Leavenworth, Kan., June 28.

Presenting Major Lumpkins with the award is Major General Michael S. Davison, commanding general of the fort and commandant of the U. S. Army Command and General Staff College.

The major, whose mother, Mrs. Martha J. Lumpkins, lives at Sue Spencer Hall, Levelland Junior College, Levelland, distinguished himself by heroic actions on June 5, 1966, while engaging the enemy in Vietnam. He was piloting an armed heli-

### All-Stars To Play At Pecos Tonight

Behind three-hit pitching of Bill Moore, Canyon Little League All-Stars trimmed Plainview 4-1 in Levelland Monday night to win the sectional title and advance to sectional play at Pecos.

The Canyon team will be pitted against Abilene Eastern in the sectional game at Pecos at 6 o'clock this evening (Thursday).

Moore turned in a creditable performance for the Randall County team at Levelland Monday night. Not only did he hold the Plainview nine to three hits, but he also struck out ten of the batters who faced him.

Plainview scored its single run in the top of the first inning.

The Canyon team was quick to retaliate. In the bottom of the second Gary Gerber put a home run over the center field fence 185 feet from home plate.

Bill Moore singled and then Gary Byars homered over the right field fence to drive Moore in and put the score at 3-1.

Canyon didn't score again until the fifth inning. Dwight Brandt got a single. Gary Gerber singled and drove Brandt to third. Then Bill Moore singled to drive Brandt home.

Moore, 12 years old, is a

### Joe Kerbel Has Mild Coronary

West Texas State University head football coach Joe Kerbel suffered a mild heart attack early Sunday morning at his home in Hunsley Hills.

His physician Wednesday confirmed earlier reports that the coach was hospitalized with a heart attack. He is in Neblett Memorial Hospital in Canyon.

"He suffered a mild heart attack," said the doctor, "and is progressing nicely without complications. He will be in the hospital 10 days to two weeks and then will convalesce at home."

Floyd Kiser

Condition Said Good

Condition of Floyd Dewayne Kiser is good following his injuries in combat in Vietnam.

His mother, Mrs. Floyd Kiser of Canyon, said she received a letter from her son Saturday. She said he told her that he is able to "hobble" around now and expects to go back to his unit within the next few days.

Kiser is reported to have suffered internal injuries and a fracture of the hip in action in which his 52-ton tank hit a mine about 50 miles south of Da Nang recently.

Bids on time deposits were submitted by the Amarillo National Bank and the First National Bank of Canyon.

Dr. Cornette said the Board of Regents requested the WTSU administration to negotiate agreements with the banks, and submit proposals at a meeting, expected to be about Sept. 1.

In other action, the board approved a 1967-68 operating budget for WTSU of \$7,233,660.75, and increase of nearly \$1 million over the budget of

### All-Stars Need Money

Canyon's Little League All-Stars are needing expense money to participate in Little League play offs.

They already face a deficit of \$500. Any contributions to defray Little League All-Star expenses should be given to Dick Dawdy or Bill Davis.

### Jones Is New Scout Executive

Bob Jones has been appointed district scout executive for the Llano Estacado Council, Boy Scouts of America, to replace Louis Machucha.

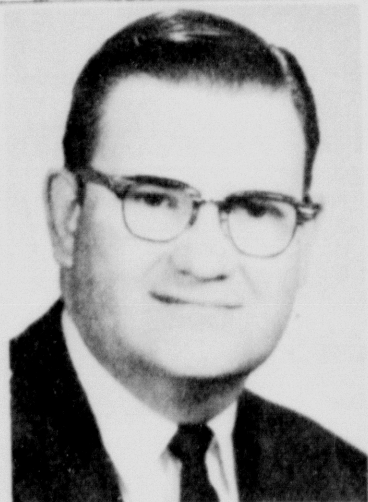

Machucha is now a scout executive in Oklahoma.

Jones, who is making his home in Hereford, came to this council from Greenville, SC, where he held a similar post.

The new scout executive is a native of Lexington, Ky., where he grew up and attended school. He served eight years in the US Army in a medical detachment.

After being discharged in 1962, he entered Bob Jones University in Greenville and was graduated with a degree in Bible. He served as educational director in Baptist Churches in Greenville and at Anaheim, Calif., before going into scout work last year.

His wife, Mary, is a native of Iowa. The couple has two daughters, Jeanie, 8 years old, and Debbie, 7.

DON STANDLEY

### Standleys To Austin

Don Standley has been named president of the Travis State Bank of Austin which is now being organized.

The new bank, if the charter is approved, will be located at 24th and Guadalupe in Austin. Standley said he and his family expect to move to Austin some time in September or October.

Standley resigned in June as vice president of First National Bank in Canyon. He had been associated with the bank since 1951 and had been a vice president of the firm since 1953.

Don and his wife, Alice Ruth, have four children. They are Joan, 12 years old; Rob, 9; and the twins, Donna and Karen, 8.

When we start defending a weakness we only call attention to it; and we magnify it before others as our defense grows more and more desperate.

FROM THE  
CANYON RIM

By Troy Martin

This country is pursuing the same course in dealing with riots and insurrection that it is pursuing Vietnam--a no win policy that portends disaster.

If troops had rolled into Watts with orders to shoot all looters on sight and if Watts had been put immediately under martial law, our riot situation would be vastly different now.

Looters have reveled in rioting as though it were a holiday.

"It's like laughing at a funeral," observed Governor Hughes of New Jersey after a tour of riot-gripped Newark.

The looters know they have little to fear from the law. Some are arrested but this is only a drop in the bucket and even these are seldom punished for their despicable acts.

Shooting has been the historic fate of looters where the government was putting forth an effort to preserve law and order.

One of the best examples of which I can think at the moment is action taken immediately following the Galveston flood. Looting was rife until the governor of Texas ordered guardsmen to shoot to kill and immediately looting stopped.

This great country vacillates in handling insurrection at home and is bogged down abroad in fighting a tiny country a little bigger than Randall County. Is it any wonder that other countries sneer at us.

Governor George Romney and President Johnson are busy accusing each other of blame in the Detroit riot.

Both of them played the political fiddle while Detroit burned. Romney wanted federal troops so he could shift some of the blame onto the federal government for use of force. Johnson was reluctant to send troops and in a speech to the nation before sending them, repeatedly referred to Governor Romney's inability to handle the situation.

I can't blame the President for not wanting to send troops. If Romney had sent his National Guard and State police into the troubled area with orders to use what ever force necessary to restore order, order would have been restored almost immediately.

Big cities of the US are almost in the grip of anarchy. Whose fault?

Black power advocates Stokely Carmichael, H. Rap Brown? They'd like to think so but I doubt that they can claim credit.

The biggest chunk of the blame must fall upon the shoulders of Lyndon B. Johnson. In his scramble to win the minority vote, he appears to have forgotten that he is supposed to be President of all the country.

Remember Lyndon Johnson joining in the chant: "We shall overcome"?

Do you remember the President's speech of Aug. 3, 1965 on the south lawn of the White House? The President himself almost called for rioting.

This is a quotation from that speech:

"I hope that you...will go out into the hinterland and rouse the masses and blow the bugles and tell them that the hour has arrived and their day is here; that we are on the march against the ancient enemies and we are going to be successful."

Apparently the H. Rap Browns and Stokely Carmichaels of this country took the President at his word. They are "rousing the masses and blowing the bugles" and across this nation there is hell to pay.

TEN-YEAR-OLD Alan Dale Donnell, son of Mr. and Mrs. Deane Donnell of Canyon, has returned from a Texas Lions Camp for Crippled Children at Kerrville. Alan received a Certificate of Honor for work completed in his unit. His trip was sponsored by the Canyon Lions Club.

Traffic Death Charges Filed

Samuel Hale, 37, Floydada, had been charged with negligent homicide, a misdemeanor, here in connection with the traffic death a week ago Sunday of Richard Wayne Owens, 20, Hereford.

Hales has not been arraigned. He remained in a Lubbock hospital early this week under treatment for a spine fracture suffered in the accident.

Mrs. Hale suffered a gash on the head and multiple bruises. The two Hale children, Andrew, 14, and Randy, 11, were not seriously hurt.

The accident occurred at the intersection of Palo Duro Highway and South Washington about 5 miles east of Canyon. The car in which Owens was riding alone was traveling east and the car in which the Hale family was riding was traveling South.

Hale was driver of the car in which the Hales were riding.

Boy Returns From Camp At Kerrville

Alan Dale Donnell, 10, has returned from a Texas Lions Camp for Crippled Children at Kerrville.

Young Donnell, the son of Mr. and Mrs. Deane Donnell of Canyon, attended the camp along with about 125 children from the Panhandle area. Alan's trip was sponsored by the local Lions Club.

Alan was given various merit awards at the camp as well as a Certificate of Honor from his unit for the most work completed. There were 27 boys in the unit.

The youth is the first from Canyon to attend the annual camp.

A fifth grader at Rex Reeves Elementary School this fall, Alan received a sportsmanship award last year.

Proceeds from various local Lions Club projects defray expenses at the camp.

Four Held In Thefts

Four Amarillo youths were fined \$100 each in connection with the theft Monday night of two wrist watches belonging to Upward Bound students at West Texas State University.

Those jailed in lieu of payment of fines were identified by officers as Willie Lee Coble, Jr., 19 years old; Dwan Stanley Knighton, 18; Press Chappell, 18; and Ewell K. Collins, 18.

They all four entered pleas of guilty in the court of Justice of the Peace W. A. "Bill" Wilson.

The four were apprehended by WT security police. Security chief Bobby Hudson said the two watches were taken from a dressing room at the university pool where Upward Bound students were swimming.

## Eastern Campers Group Applauds "TEXAS" Show

BY LORENA MILLER  
And what is "TEXAS" like to a group of Easterners?

sors who saw the outdoor drama last Wednesday night.

The group of seventh, eighth and ninth grade students were in Canyon on a 45 day camping trip sponsored by Camp High-Bridge in New York. Director of the camp is Anthony Noto, who was making his fifth trip to the western United States as sponsor for youthful explorers.

He was accompanied this year by his wife and two daughters. "I first came to Canyon back in 1956 with four boys," said Noto. "Since then I have taken groups to the Palo Duro Canyon and Panhandle-Plains Historical Museum five times."

"Of course, last year was the first time that we ever saw "TEXAS" and there is a long story with that," said Noto explaining that when the campers of 1966 were in Canyon they heard of the outdoor production and decided to attend.

"We didn't have any dress clothes...so we slipped in on our T-shirts and camping shorts," said Noto, "but this year we came prepared with our proper clothing."

"I was so fascinated with the show last year that I planned to have it on the camping agenda this season," Noto exclaimed. "When we got home last year, I tried to tell my wife and everyone about the show...but you just can't tell about it....you have to see it to believe it."

The private camp is designed primarily to offer an outdoor "camping" trip to its participants, according to Noto. "I like to think that the boys learn about the history of their country, the geology and about the Indians and cowboys of the old west."

"Travelling this way gives the boys a chance to see life outside of the cities where they

live," said Noto, who is a physical education instructor at an elementary school in Elmont, New York.

"Then when they read about a big snowstorm in Kansas, they can remember what the country is like there. The same idea goes for other parts of the United States...they get an opportunity of a lifetime," stated Noto.

The group travels in two Volkswagen busses. They left New York state on July 4 and prior to arrival in Canyon, the group visited Springfield and Lincoln, Illinois and in Meade, Kansas, where they saw the Dalton gang's hide-out.

Then they traveled to Santa Fe, New Mexico and to Bandelier, New Mexico to view national monuments, ruins of Indian pueblos and cave dwellings. They then went to El Paso and Juarez, Mexico to see the bullfights. Enroute to Canyon, they stopped at Carlsbad Caverns in New Mexico and saw the Bottomless Lake State Park near Roswell, New Mexico.

"We build our campfire rain or shine," said Noto. "The boys sleep in tents and sleeping bags throughout the 45 day trip."

"When we got to the canyons, some of the boys went hiking, others rode the Sad Monkey railroad, and others went wading in the water crossing," Noto stated.

Enroute to their homes in New York, the group will stop off at St. Louis, Missouri to see the "Gateway to the West", monument, and will go to Canada to tour "Expo '67".

"Oh, we'll be back down to Texas again next year to see you folks her though," concluded Noto.

BIRTHDAY CELEBRATION honoring Mrs. Worth Jennings, Sr. of Canyon was held last week in the home of Mrs. Clyde Davis. Mrs. Jennings is 85. Pictured are, seated, Joe Jennings of Lorenzo and Mrs. Jennings. Back row, left, Mrs. Cecil Hagood of Floydada, Mrs. Clyde Davis, Mrs. Lena Wade Phillips of Hart, Mrs. Vester Hill of Spearman, and Jack Jennings of Canyon. Not pictured is Worth Jennings of Canyon.

## Mrs. Jennings Has 85th Year

The 85th birthday for Mrs. Worth Jennings, Sr. was observed Sunday with a family dinner at the home of her daughter, Mrs. Clyde Davis.

Born July 30, 1882 in Ben Franklin, Texas (Delta County), Mrs. Jennings first came to Canyon at the age of eleven. She attended public schools here and in 1901 was married to the late Worth Jennings, who died in 1949.

Mrs. Jennings recalls that her first home in Canyon was located where the post office is built now. She is a member of the First Christian Church here.

"I've been busy all of my life," said Mrs. Jennings explaining the hardships of raising seven children. She went on to explain that for the past several years she has been "taking it easy".

Mrs. Jennings boasts of having a four generation family to attend the public schools

here. After she attended the school, her son Worth, Jr., his daughter, Mrs. Doris Newberry, and her son, James Newberry, also attended the schools.

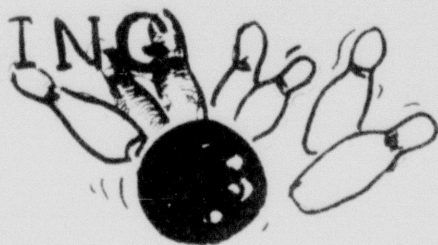

Proud of her descendants, Mrs. Jennings said that she has ten grandchildren and 19 great-grandchildren.

"I love for all of them to come see me—but not all at one time," she laughed.

The birthday dinner Sunday was held for Mrs. Jennings and her children and their families. Children of Mrs. Jennings include Mrs. Davis of Canyon, Worth Jennings, Jr. and Jack Neil Jennings, both of Canyon, Mrs. Cecil Hagood of Floydada, Mrs. Vester Hill of Spearman, Mrs. Martin Phillips of Hart, and Joe Jennings of Lorenzo.

Going somewhere? Or been? The Canyon News wants to know about it—and so do its readers.

MRS. ROBERT HORTON is shown with a pen of weaner hamsters at her farm east of Canyon. The Hortons raise hamsters, guinea pigs, white mice and chickens for sale on the experimental market.

# Animal Market Supplied Through Woman's 'Hobby'

BY LORENA MILLER  
Thousands of guinea pigs, hamsters, white mice and hens have proved to be a profitable hobby and new business for a Canyon housewife.  
Mrs. Robert Horton, "Nell," undertook her venture of raising guinea pigs, hamsters and white mice about January on the urging of a friend. The Horton

enterprise is located about ten miles southeast of the city.  
"Oh, I have a few animals now," said Nell pointing to about 1,000 hamsters, an equal number of white mice, about 250 guinea pigs, and about 475 laying hens.  
The animals are separated into bins in a big farmer's barn near the Horton home. It takes Mrs. Horton's fulltime work, assistance from her daughter, Linda, and husband, Robert, who is a mechanic with Plains Chevrolet in Amarillo.  
"We all have to work with the animals," said Mrs. Horton who explained that the project was begun with about 50 guinea pigs being raised for experimental purposes of animal medication for Franklin Serum of Amarillo.  
"They place orders for a certain number of animals," said Mrs. Horton. "When our supply outgrows the present market, we plan to ship the animals to other experimental stations at surrounding colleges."  
"It takes a lot of record keeping and cleaning and feeding to care for them" laughed Mrs. Horton. "We clean all of the cages each week and fill them with fresh sawdust."  
"Mothers and babies are penned together until the weaning date," said Mrs. Horton explaining that after the mother mouse has littered four times, she is destroyed because she is not as productive with succeeding litters. "They average 10-20 little ones per litter and breed and deliver in about 21 days."  
"Sometimes the mother devours the babies," said Mrs. Horton. "Then we have to destroy the mother."  
When a bin of the animals become infected, they are all destroyed," said Mrs. Horton. "Then the bin is disinfected for further use."  
The mice and the hamsters are kept in 1 x 2 plastic dishpans filled with sawdust shavings and covered with a wire mesh. Each pan is equipped with a watering bottle and individual cards are kept on each pan of animals showing when they were born, when they are to be weaned, and when the mother is to be bred again.  
Chow and corn are fed to the white mice. Hamsters also eat chow and corn, but expectant mother hamsters are also fed carrots to give them additional vitamins and the infant

hamsters have fresh apples added to their diet.  
The hamsters are also kept in dishpan bins. Mrs. Horton explained that the hamsters breed and deliver in about 16 days and average litters number 8-12. The hamsters are also destroyed after four litters.  
"We keep the guinea pigs in floor bins, separated with 2 x 12's and measuring about 3 x 6," Mrs. Horton said. "They eat fresh lettuce leaves and pellet feed."  
"The guinea pigs average two infants to a litter and some have more," said Mrs. Horton. "When born, the infants are able to eat from the pan. We keep them longer than the other animals."  
Watering bottles are soaked for several hours in a solution of bleach water before they are placed back in the pens.

Mrs. Horton plans to experiment with several albino hamsters and see if she can "get a strain of albinos".  
Mrs. Horton said that when she gets a new house for her

family they will then use their present farm home as the "animal house".

MRS. NELL HORTON and daughter, Linda, pigs. The Hortons raise a variety of animals are shown here with some of their guinea commercially.

## Reading Conference Opening Next Tuesday

Program emphasis for the 1967 Reading Conference which opens Tuesday at West Texas State University, will be on "How to help the normal pupils who have learning difficulties," according to Dr. Ruth Lowes, head of the education and psychology department, which co-sponsors the event.

The conference opens at 8:30 a.m. Tuesday with registration in the Student Union Building. A general assembly at 8:45 a.m. in the ballroom will be presided over by Grady L. Coates of Longview, state president of

the Texas Association for the Improvement of Reading, which assists in sponsoring the conference.  
Major talks daily during the three-day conference will be made by the two speakers, and section meetings for different grade levels are planned each morning. Textbook exhibits, reading clinics, and film sessions are also planned.
